PROFILE

React.js Developer with hands-on experience building responsive, component-based web applications using React, Next.js, and Tailwind CSS. Skilled in React Hooks, React Router, REST API integration, and full-stack development with Node.js, Express.js, and MongoDB. Experienced in deploying production applications on Vercel and completed a web development internship delivering a live management system using Core Java and MySQL.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap
- **React Ecosystem:** React Hooks (useState, useEffect), React Router, Component-Based Architecture, Chart.js
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, Core Java
- **Database:** MongoDB, MySQL
- **Tools & Deployment:** Git, GitHub, VS Code, Postman, Vercel, Render
- **Concepts:** OOP, MVC Architecture, Responsive Design, Debugging

PROJECTS

TrackWise AI – AI-Powered Expense Management System — *Next.js, React.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS, Groq AI, Chart.js*

- Built a full-stack AI-powered expense management application with JWT authentication, secure login/signup, and protected routes
- Developed a responsive real-time dashboard displaying income, expenses, balance, and savings with full CRUD for transactions
- Integrated Groq AI to generate personalized financial insights and spending suggestions, plus interactive Chart.js analytics for category-wise expense breakdown
- Added budget management for monthly spending limits and deployed via Vercel (frontend) and Render (backend) with MongoDB Atlas

GitHub: github.com/sidhantkamble22/trackwise-ai | **Live Demo:** trackwise-ai-eta.vercel.app/

Vendor Complaint Management System — *React.js, JavaScript, MongoDB, Cloudinary, Tailwind CSS*

- Developed a full-stack complaint management system enabling vendors to submit, track, and resolve complaints in real time
- Built RESTful APIs with MongoDB for data persistence and complaint status tracking
- Integrated Cloudinary for image upload and storage, allowing vendors to attach supporting images to complaints
- Designed responsive, reusable UI components with React and Tailwind CSS

GitHub: github.com/sidhantkamble22/vendor-complaint-system | **Live Demo:** vendor-complaint-system.vercel.app/

Blood Donation Camp Management System (Personal Rebuild) — *Next.js, React.js, Express.js, MongoDB, Tailwind CSS*

- Built a full-stack donor management system streamlining donor registration, camp requests, and admin operations through a responsive interface
- Implemented backend with Express.js and MongoDB for data storage and API handling
- Deployed live on Vercel

GitHub: github.com/sidhantkamble22/blood-donation-management-system | **Live Demo:** blood-donation-management-system-iota-three.vercel.app/

INTERNSHIP

Web Developer Intern — **AdlerNio Private Limited, Pune**

Nov 2025 – Dec 2025

- Built a Blood Donation Camp Management System using Core Java and MySQL to manage donor registrations and camp details
- Designed a responsive frontend with HTML, CSS, and Bootstrap, implementing form handling and admin functionalities
- Collaborated on application development following OOP and MVC principles in a live production environment

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science

Sadguru Gadge Maharaj College, Karad | Shivaji University | 2023 – 2026

LANGUAGES

English, Marathi, Hindi
